User's Guide

Avisoft ULTRASOUNDGATE

Introduction

Thank you for purchasing the Ultrasonic Dynamic Speaker Vifa.

This device is intended for playing (ultra)sounds in the frequency range between 1 and 120 kHz. It can be used in combination with the UltraSoundGate Player 116 (#70111/70112), UltraSoundGate Player 216H (#70117/70118) and the Portable Ultrasonic Power Amplifier (#70101).

Warning

This speaker is intended for playing animal sounds that exhibit a relatively low duty cycle. Playing continuous sine (or noise) signals at very high volumes may permanently damage the speaker due to overheating. The power limit for reproducing continuous signals is 10 W, which corresponds to a sine wave signal having a peak-to-peak amplitude of approximately 20 Vpp.
